DIARY NOTES

DD/S

WZ

12 June 1964

1. [REDACTED] buzzed to say that the Director has become interested in the Office of Security monthly "Special Report on Security Actions," which heretofore had been submitted to General Carter. He requested that in the future it be forwarded to the Director through General Carter. (This has been communicated to the Office of Security.)

2. Larry Houston called to my attention a situation which may be causing the Retirement Board unnecessary work in that, even though the head of a career service or the Deputy Director has approved a request for postponement of the retirement date, the case is still sent to the Retirement Board. He considered this procedure unnecessary unless the employee appeals to the Retirement Board for a longer postponement than the head of the career service or the Deputy Director has approved.

6. I discussed several items with [REDACTED]

25X1A

a. He advised me that DD/S&T definitely plans to go forward with a [REDACTED] and that he and [REDACTED] will meet sometime next week with [REDACTED] about support. Jack shared my opinion about the need for a Chief of Support [REDACTED]. I told him that he should have no hesitancy in quoting me since I had already made my views known to Jim.

b. We talked about [REDACTED] whose one-year tour will be up soon. I told Jack that I thought he and Emmett Echols should be planning on a replacement since it appears very likely that [REDACTED] will return to the Office of Personnel to become a Division Chief.

25X1A

c. Jack said that he is satisfied that the Office of Computer Services management survey was a good idea and thought that it might be profitable for me to meet with this three-man team sometime soon. I said that I would like to do this, and I want to be sure that [REDACTED] sits in.

d. Jack showed me a memorandum which [REDACTED] Acting AD/ORD, has written to the Director of Logistics expressing his apprehensions about the extent to which the Procurement Division is going in for cost-plus-incentive-fee contracts. I asked him to send me a copy. (I want to discuss this with Jim Garrison.)

8. [REDACTED] buzzed to say that the Director wanted to do something for Gates and had suggested a luncheon including wives of a group made up generally as follows: DCI, DDCI, Executive Director-Comptroller, the four Deputies, John Bross, Larry Houston, and Jack Earman. After checking with Gates I advised Walt that Mr. and Mrs. Lloyd would be very honored to accept such an invitation, and at his suggestion they are holding 26 June open.

25X1A9a

9. [REDACTED] advised me that he had talked with [REDACTED] about returning to the Clandestine Services. They propose to have him work for and with [REDACTED] in the Records Integration Division. Dick Helms has been advised, and everything is all set to make the move at any time; however, Dick does want to speak with me before it is actually made.
